RF 1 Subskills

(Adapted CCSS language)

- Understand the spoken>written language (or oral>print) relationship
- Follow print from left>right, top>bottom, and page>page
- Recognize the basic features of a sentence in print:
words + spaces = sentence
- Recognize and name all upper and lower case Roman alphabet letters

Reading Foundational Skill 2

RF.2. Level A, K-1*

- Recognize and produce rhyming words
- Count, pronounce, blend, and segment syllables in spoken words
- Blend and segment onsets and rimes (“b + at = bat”) in one-syllable, spoken words
- Isolate and pronounce initial, medial, and final sounds in simple CVC (consonant + vowel + consonant) words

RF 2 Subskills

- Blend individual sounds into spoken, one-syllable words (“b + a + t = bat”)
- Add individual sounds to make new, one-syllable words (“add /s/ to and = sand”)
- Substitute individual sounds to make new one-syllable words (“change /f/ in fan to /m/ = man”)
- Segment spoken, one-syllable words into individual sounds (“bat = b + a + t”)

Reading Foundational Skill 3

RF.3. Level A-C, K-5*

Ultimately...

- Read high-frequency words by sight (e.g. *the, of, to, you, she, my, is, are, do, does*).

Break 1

RF Questions?

The TESTS

(see BATT, pages 6-25)

Alphabet Knowledge

RF.1. (PC)

1. Identification (upper)
2. Identification (lower)
3. Naming (upper + lower)
4. Writing (upper + lower)

Letter-Sound Knowledge

RF. 2.-.3. (PA, P & WR)

5. Single consonants
6. Short vowels
7. Consonant blends
8. Consonant digraphs + trigraphs
9. Long vowel silent-e + vowel digraphs
10. Vowel-r + diphthongs

Testing Notes

(See BATT, page 6)

1. All tests include teacher directions, student pages, and answer keys.
2. Use your teacher knowledge of students' reading strengths and needs to select an appropriate 'starting test'.
3. Not all tests or items need to be given.
4. Stop testing when you have what you need or if students begin to show test fatigue or frustration.
5. If certain testing processes or test items are confusing for students, change the steps, orders, or words as needed.

Test Modeling

See handout, page 2

Test Practice & Reflection

(See BATT & handout, pages 2-4)

1. Browse BATT test directions, tests, and answer keys (pages 6-25).
2. Select a test that is appropriate for the students you are currently teaching.
3. With a partner, take turns conducting your selected tests (mark answers on page 3).
4. Discuss the reflection questions on page 4.

Fluency Testing

(See handout, page 5)

1. Use passages (between 1-3 paragraphs) at each student's correlated TABE or CASAS Reading grade level - or better yet, one grade level lower.
2. Have the student read the first paragraph aloud while you follow along on an identical copy. Provide pronunciations only as needed to move the oral reading along.

3. As the student reads, ask yourself:
 - a. Are most of the words read or pronounced correctly?
 - b. Does the rate or speed mostly allow for understanding?
 - c. Are words mostly phrased or chunked into meaningful units?

4. If you can answer yes to all 3 questions, go up a level. If you cannot, go down a level.

The highest level of passage that results in “struggle” is the student’s Fluency Instructional Level.

Students at similar levels (1-2, 3-4, 5-6, even 2-4 or 4-6) can work on fluency together with teacher-guided and repeated oral readings.

2. Students read and spell each new high frequency word 3-5 times.
3. Teacher and student read related high frequency phrases or sentences (See Appendix, pages 63-65).

APPLICATION to LONGER TEXT

(stories, articles, passages, books)

1. Teacher selects grade-leveled text at students' similar instructional levels.
2. Teacher selects a fluency technique with the necessary amount of modeling (see pages 34-35).
3. After each paragraph, page, or section, teacher briefly checks comprehension by asking students a few 6W questions based on evidence from the text (see page 35).

CRACKING THE CODE: ENGLISH READING DEMYSTIFIED

The content on this site stemmed from a study circle of four adult English as a Second Language (ESL) teachers whose learners range from pre-literacy to advanced levels of ESL instruction. The educational backgrounds of these learners vary widely, but a significant number have had limited formal education and many never acquired literacy in their native language.

In the classroom, we observed our English Language Learners (ELL) struggling with various elements of alphabetic print literacy including phonemic awareness, phonics, print awareness, fluency, comprehension, and writing. We noticed that the difficulties ELLs experience are extremely similar to the difficulties experienced by learners in another field of literacy: dyslexia.
