CCRS Teacher Workout

Making Sense of a Standard

Time needed: 25-45 minutes

Goals:

- Break apart a given standard into meaningful sections, and articulate the relationship between the content of the sections
- Brainstorm strategies, objectives and learning targets for a given standard

Materials

- [Facilitator slides](#)
- [Suggested standards to pair with worksheet](#)
- [Worksheet to pair with chosen standard](#)

Introduction

1. Use facilitator slides to set up the purpose and directions of the activity.
2. Select a standard to focus on for the practice portion of this workout.

Practice

3. Hand out the worksheet, and have participants work through the questions individually or in pairs.
4. Report out in a large group. Depending on time, go through the entire worksheet, or pick sections to highlight and discuss.

Wrap Up

5. Talk about the importance of being able to analyze standards.
6. Hand out an additional worksheet for participants to complete individually at another time with a different standard.
