

You achieved your dream.
Now you can help her achieve hers.

VOLUNTEER TO BE A FORWARD TOGETHER AMBASSADOR

To be its most successful, Minnesota needs to increase the number of BIPOC individuals completing postsecondary education or workforce training.

In 2015, the Minnesota State Legislature set a goal to get 70 percent of Minnesotans within each racial and ethnic community, ages 25-44, to obtain a postsecondary certificate or higher by 2025.

We need all of us working together to reach our educational attainment goal.

Minnesota's volunteer Forward Together Ambassadors play a key role in spreading the word about educational and training opportunities for adults.

Ambassadors are not required to be experts in the fields of education or workforce training. Neither are they expected to have all the answers. Instead, volunteer Ambassadors are catalysts who open the door to a conversation with someone who may not have known how or with whom to start the conversation themselves.
