

CONNECTING ALL MINNESOTANS:

Be Part of the Digital Opportunity Planning Process

“Digital opportunity” means everyone has technology options that work for them.

In November of 2021, Congress passed the Digital Equity Act, appropriating \$2.75 billion to help Americans access technology. To receive this funding, each state needs to develop a digital opportunity plan. One way to shape Minnesota’s plan is to attend a digital opportunity listening session. Just bring your thoughts about access to the internet, access to devices, digital skills, and Minnesota’s digital future!

Date	Location	Time
August 29	Willmar	1:00pm-3:00pm
August 30	Marshall	1:00pm-3:00pm
