

CCRS FOUNDATIONS REFRESHER WEBINAR

Monday, September 9, 2025
2-4:00pm
ELA & Math

Presenters: Kristine Kelly (ELA) &
Lindsey Pust (Math)

This webinar is for any teacher, coordinator, administrator, or program leader who would like to brush up on their CCRS Foundations knowledge.

You will have the option to join an **ELA or **math** breakout group as we take a moment to refresh on key components of CCRS Foundations!**

- **Do I remember the math shifts and the standards for mathematical practice and the difference between them? Do I remember what the three aspects of Rigor are and why they are important?**
- **Do I remember how to measure text complexity, both qualitatively and quantitatively? Do I remember the progression of text-dependent questions outlined by Fisher and Frey?**

We will be refreshing on these topics and more!
